As an XM subscriber I urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming I demand and deserve. I benefit from listening to XM Satellite Radio and its traffic and weather channels. XM radio provides variety and quality that are not available elsewhere. I pay for these services and it should not be up to the NAB to dictate what I am permitted to hear.

I listen to XM's traffic and weather channels to obtain instant information regarding current traffic conditions at home, as well as forecast weather conditions in distant cities I plan to visit.
